

## SPIRITUAL NDE RETREAT INFORMATION

### ***Spiritual Retreat for Near-Death Experiencers Mission:***

To help each other open to our unique light and self-realization through loving communication, encouragement and validation, which ultimately contributes knowledge and compassion throughout the world.

### ***What are the benefits of the Spiritual NDE Retreat?***

The Spiritual NDE Retreat gives you time in a peaceful, safe and healing environment to rest, reflect, learn, meditate, and share with other near-death experiencers who are supportive and understanding of all the changes that take place following an NDE.

### ***What happens at a Spiritual NDE Retreat?***

We provide a balance of both a structured program and unstructured time throughout the retreat so that people can spend time alone with their thoughts or connect with others as desired.

During the structured program you will hear from other near-death experiencers about their experiences, what they learned from them, about their transformations, challenges and aftereffects. Meditative techniques, Tai Chi, integration methods, and coping suggestions will also be shared. No attendee will be required to share an experience or thoughts. Whether you choose to share or not, your choice will be respected and supported.

### ***Definition of an NDE from the IANDS WEBSITE:***

"A near-death experience, or NDE, is a profound psychological event with transcendental and mystical elements typically occurring to individuals close to death or in situations of intense physical or emotional danger." [http://www.iands.org/nde\\_index/ndes/key\\_facts\\_about\\_near-death\\_experiences.html](http://www.iands.org/nde_index/ndes/key_facts_about_near-death_experiences.html)

### ***The Retreat for Near-Death Experiencers Vision Statement:***

Because of the profound nature of the experience and the common bond felt by those who have experienced an NDE, we come together to explore and share our challenges, our solutions to these challenges, and our gifts received from our NDEs, in a positive, supportive, and loving environment.

We leave it to the individual attending the Retreat for Near-Death Experiencers, to determine if their NDE fits the above definition of an NDE and the vision of the retreat.

### *Respecting Your Privacy, Personal Space and Viewpoints*

At the Spiritual NDE Retreat, we aim to create a clear, protected, personal space where everyone's reflections and experiences can safely and privately unfold without proselytizing, judgment or disclosure beyond the retreat. If you feel an intrusion at any time, please speak to one of the organizers. Spiritual viewpoints expressed are strictly those of the individual. Please do not use the retreat as a place to sway others to your viewpoint. Video taping, photos, audio recording or interviewing of retreat attendees without their permission may cause an intrusion on the private, personal and sensitive nature of near-death experiences and the retreat. Please remember that there will be experiencers there who do not wish their very personal experiences or even their presence at the retreat to be shared beyond the retreat. Be respectful of others' privacy and get permission from individuals before taking photographs of attendees. No photographs or any other personal identifying information may be made public or shared beyond the retreat without the express permission of the attendee. Limited photos may be taken for retreat promotional purposes.

*Note: The Spiritual NDE Retreat does not provide psychotherapy, counseling, or any other psychological or medical treatment nor does it provide referrals to such services. Individuals attending the retreat are not therapists and are attending for their own enjoyment. We do not have the capability of providing individual counseling. If you are in need of individual support, such support cannot be provided at the retreat.*
